BASIC INFORMATION

DESCRIPTION

The 500 Cima Range of the Company Simon, offers a new direct snap-fit installation system, and is a type of installation that practically needs no tools. Its new click-terminal connection, which means: Insert, tighten and ready, without the need to strip or braid the wire, it is fully compatible with all connectors of the brands of the highest quality in the market. It has created with this range a new centre frame system for independent installation of electrical and Voice and Data circuits. This guarantees high security of equipment and installations avoiding electromagnetic waves that cause interference. All sockets can be linked to each other by means of a linker. It is without doubt, the best solution for ensuring high speed data transmission. Optimal bending radius and more space for cabling. The voice and data plates are specifically designed for assembly in 500 CIMA housing.
