# Double rocker for switches champagne Simon 82

REF. **82026-34**

# BASIC INFORMATION

## DESCRIPTION

Double rocker for control mechanisms, it is part of the Simon 82 series and has a finish in champagne colour. This rocker we can find it in a total of six finishes varied. The recommendation is resorting to a frame in the same colour as the rocker selected. This double rocker Simon has exact dimensions 55 x 55 millimetres. It is the double version for a single element and does not include the signaling function of any kind. It has engraved in its design. It can be installed in surface-mounted or recessed, to increase the versatility of the product and adapt to the space in which it is located. To ensure maximum security during their use, it is made of galvanized thermoplastic, a material that avoiding flame spread in case of fire and the minimum toxicity in case of smoke. It also withstands temperatures very variables, ranging from -25 to + 50 degrees centigrade. Does not require much maintenance, simply have to clean it with a soft cloth cotton completely dry cloth.
