

Cover for gloss black wire outlet Simon 100

REF. 10000051-138

BASIC INFORMATION

DESCRIPTION

Cable cover for mechanisms in black color of the Simon 100 series, you can find the item in the category "Keys and Covers", it is a part that allows to hide the cables of other electronic components in a discreet environment. It is composed of a half-element and an installation suitable for recessed or surface mounting. Socket is made of PMMA with a thermoplastic base that allows it to operate at maximum temperatures of minimum 0 ° C and maximum of 40 ° C. In color contains a black quartz switch, resistant to 95% relative humidity (without dew). It is part of the Simon 100 series and you can count on the impeccable design of this element, combining nobility and avant-garde design to give your home the touch it needs. Optimize all housework and turn your home into an automated one with setting lights, automatic raising and lowering of blinds, etc. "
