

Frame for 4 elements gloss green without claws and with frame holder Simon 27 Neos

REF. 27774-32

BASIC INFORMATION

DESCRIPTION

This Frame with frame-holder is part of the Simon 27 Neos range and is designed for mechanisms that supplied energy to four elements. Its size is 86 x 306 millimetres and consists of a total of eight modules, its installation is very simple, the article is suitable to be installed directly in surface-mounted or flush-mounted. It can also be done in a horizontal or vertical position, so that the frame stands out for its versatility. The products of the Simon 27 Play range are offered in a very different colours, always looking for adapted to modern times and to the new trends aesthetics and decoration. In this sense, this frame is in a daring bright green colour, so it is advisable to combine it with covers and rockers of the same shade to have a result harmonious. The frame is made of thermoplastic material and the frame-holder is metal, which is a clear commitment to the security of the product, as this material is characterized by providing great resistance to the frame.
