BASIC INFORMATION

DESCRIPTION

Functional, simple and designed for all audiences, with many options in shapes and colors. The Simon 75 series consists of four parts, offering a solution in the form of solutions to all of them: Mechanisms, frames, trims and the rocker. In this case, we present the ivory intermediate piece of this series, which acts as a trim in this type of installation. It incorporates its range of mechanisms of the Simon 75 Series and that allow the product to be surface mounted or flush mounted depending on each space. All kinds of colors in the same frame or rocker, being able to choose colour in these intermediate parts. A wide range of options. Because Simon always thinks of all tastes and needs. And is it too hard to clean? Not. Just avoid abrasive components containing chlorine and use soapy water with a soft cloth.
