# Frame for 4 elements ivory Simon 82

REF. **82740-31**

## BASIC INFORMATION

### DESCRIPTION

This frame of the Simon 82 series is designed for mechanisms that provide energy to a total of four electrical equipment. It measures 300 x 89 millimetres and comes in a beautiful ivory colour and stylish that endow of sophistication to any room where it is, therefore, it is advisable to combine it with rockers and covers of the same colour, ivory, also offered by Simon. The installation of the frame is very simple because and is designed to be carried out by means of recessed. This piece stands out of the resistant material of which it is made. Therefore, both the baseboard and the frame itself is thermoplastic, which gives the ability to resist or very low or very high temperatures without hinder its operation. Its maintenance is very simple and does not need of any product specific. Just have to use a cloth slightly dampened with soap and water and with that will be impeccable.
