

Frame for 4 elements tile interior ivory Simon 82 Nature

REF. 82747-64

BASIC INFORMATION

DESCRIPTION

The model of the range Stone, in its tile finish and ivory baseboard, of the Simon 82 Nature series combines the nature with the strength. It is a mixture even between the hardness of stone and the elegance of ivory. Created for a capacity of up to four elements, this version, its dimensions are 314x94mm. Its installation is expected to adapt to any universal recessed box. Having the baseboard in an ivory finish, it is recommended to use the same for rockers and covers, thus breaking the appearance of the design. The baseboard is manufactured in thermoplastic, high resistance, while the frame has a tile finish. For its maintenance only, it is necessary to use a soft and dry cloth, without cleaners that may damage the material.
