Front face kit for 3 elements with 3 matt white keys Simon 100

REF. **10020301-230**

BASIC INFORMATION

DESCRIPTION

This front panel kit is from the Simon 100 series complete the mechanism necessary to create a point of light in the home, office or any other space. Simon's mechanisms are made up of two elements, one of them. The front panel kit is designed to light 3 elements of intensity 10 AX and 250 volts and therefore composed of three buttons. It has a click system and the device operates with a simple push button insertion system. The kit is presented in a traditional white color, so that it combines perfectly with any corner of the outbuilding where it is placed. It is precisely the Simon 100 range of mechanisms that was created with the aim of combining functionality, design and appearance of rooms. Therefore, is composed of simple and interactive devices for the user, besides being very intuitive. In addition, these mechanisms are very resistant and offer a long service life thanks to the quality of the materials with which they were made.
