

Voice and data flat plate with dust cover for 1 element and 1 RJ45 connector category 5e UTP black Simon K45

REF. KA95U/14

BASIC INFORMATION

DESCRIPTION

Voice and data flat plate of the series Simon K45. It incorporates a dust cover and has an element and an RJ45 connector of category 5e UTP, finished in black colour, this is the individual version of the plate with four modules. To perform the connection of the same, it is necessary to use the insertion tool. This voice and data plate is available for both one as for two RJ45 connectors. It incorporates a dust shutter and allows the combination of the same in vertical enclosures. To do this, it is necessary to take the 90 ° positioner (ref. K66). The series Simon K45 commitment compact products, ideal for use in environments very varied. This plate measures 45x45 mm and has a depth of 30 mm requires a wire cross-section 22-26 AWG. It is possible to its installation in surface-mounted or recessed. The series Simon K45 has been made with components of the highest quality, that guarantee the security of its products. This plate of voice and data is designed to calve of metal materials isolated thermoplastically. In the event of smoke generation, the toxicity would be minimum. In addition to withstand high temperatures, plates of the series Simon K45, are easy to maintain, just a soft cloth to clean always keep them.
