Thermostable frame for 3 elements ivory Simon 31

REF. **31631-31**

BASIC INFORMATION

DESCRIPTION

Frame made of thermoset plastic designed for 3 elements, in ivory colour, this piece is included in the s erie Simon 31 and measures 228x87 mm You have been made in compliance with the current regulations and can be installed both horizontally and vertically. Due to its special features, the frame has a high thermal resistance, although the ideal thing is to install it in environments with temperatures between 28 and 40ºC for better conservation of the same, as it has finished in ivory, it is advisable to combine it with rockers and covers that have this same finish for an optimal result. The article does not require much maintenance and, in fact, it is sufficient to use a soft cloth and slightly moistened in water with soap. Also, it is advisable to avoid abrasive cleaners containing chlorine.
