Frame with base for 2 elements vertical graphite Simon 73 Loft

REF. **73621-62**

BASIC INFORMATION

DESCRIPTION

A frame for surface-mounted and trunking with a minimum thickness, offering decorative solutions for spaces that require installations without channels. It belongs to the series Simon 73 Loft, a series that allows a quick assembly and offers a wide range of features. With dimensions of 146x75 millimetres, we are faced with a frame with socket for 2 elements, vertical, graphite. A great finish, also recommended for rockers and covers. Functional element is manufactured in thermoplastic, which is a renewed version of the series 73, offering a great adaptability as they share the same mechanism. This product is also available for 1 and 3 elements, Simon is characterized by offering solutions to all types of electrical installations at an unbeatable price. This piece is available in three finishes: White, aluminium and graphite precableados. It has mechanisms that allow a great time-saver in your installation.
