

Plate for R/TV inductive sockets grey Simon 75

REF. 75053-35

BASIC INFORMATION

DESCRIPTION

The Plate for inductive sockets in grey of the Simon 75 series is superb due to all its features. It has been designed for R-TV formats with a perfect combination of balance and simplicity, this is a perfect piece to install both in the wall and on the surface-mounted, being able to choose in its six finishes (snow white, ivory, grey, graphite, aluminium and bronze), a circumstance that allows us to choose the frame with the same baseboard colour as the rocker selected. It also includes R-recording and TV to know at all times which device it corresponds to. It is a perfect plate to resist the passage of time thanks to the thermoplastic materials with which it has been manufactured, which prevents its deterioration in adverse temperature conditions. This has made it one of the best-selling R-TV boards today.

FINISH

Grey

MATERIAL

Thermostable

PACKAGING CONTENTS

Plate
