BASIC INFORMATION

DESCRIPTION

Flat base plate of voice and data that includes a dust shutter of 1 element suitable for 1 ITT Cannon ® RJ45 connector with black finish and belonging to the series Simon K45. The product has dimensions of 45x45 mm and a depth of 8.5 mm is suitable for surface and flush mounting and is in compliance with the regulations, which governs this type of mechanism. For its halogen-free thermoplastic material, the piece guarantees maximum security in case of fire, as well as the minimum toxicity if any smoke. One of its main qualities is therefore the exceptional resistance to high temperatures.
