

Single rocker with bell symbol for push button white Simon 73 Loft

REF. 73017-60

BASIC INFORMATION

DESCRIPTION

The series of rockers and covers Simon 73 Loft offers a wide product catalogue, which advocate for the maximum quality and versatility. This one, in particular, is the individual rocker with bell engraving for push-button switch. Commitment to a simple and discreet finished in white colour. It is the individual version of a single element, which does not include a signaling function. These rockers Simon 73 Loft are available in three finishes in total. It is recommended to choose the frame in the same finish as the rocker selected. In this case, would have to choose a frame in white finish. Manufactured in thermoplastic material of maximum security, it can withstand extreme temperatures, ranging from -25 to the + 50 degrees centigrade. Its measures are 55 x 55 mA. It is recommended to clean the rockers of this series with a soft cloth with soap and water, neutral. Always avoid the use of aggressive cleaning products, to extend the service life of the product.
