

Flat voice and data plate with dust cover for 2 Systimax® RJ45 connectors white Simon 82

REF. 82009-30

BASIC INFORMATION

DESCRIPTION

This Plate of voice and data plate is designed for 2 with RJ45 Systimax connectors and comes with dust cover protector. The product is part of the Simon 82 range, its dimensions are 55 x 55 millimetres and stands out for its simple installation by means of recessed or directly in surface-mounted. The plate is presented in a classic colour white that makes it adaptable to any room, regardless of its decorative style, but also, the user will be able to choose from a total of six different finishes for the same product. In this way, Simon you want to give its products also a value decorative. Only have to take into account is that it is advisable to select a frame of the same colour as the rocker selected in the baseboard, for as well to keep the harmony appearance. The plate is made of thermoplastic material that gives it great resistance to high and low temperatures, as well as against possible challenges external and scratches.
