Front face kit for 1 element with 1 gloss white key Simon 100

REF. **10020101-130**

BASIC INFORMATION

DESCRIPTION

Front face kit for 1 element with a white finish including a key and a frame. It offers a 1-click connection, a simple system with which there is no need to strip or braid the cables, the part is suitable to be recessed and designed to be exposed to all temperatures, even the most extreme. This is a tiltable push button switch included in the Simon 100 series. The electric mechanisms in this collection have been designed to facilitate their interaction. The kits in this series thus make it possible to cover the needs of each room in a single product with a neutral design and clean lines. The Simon 100 series represents a revolutionary concept in terms of handling and appearance. Without a doubt, it is a very intuitive collection that makes all the difference.
