BASIC INFORMATION

DESCRIPTION

The schuko socket base with double USB A + C charger 10.5W Simon 75 is the perfect solution for those seeking a power outlet with integrated USB that combines functionality, design, and maximum safety. This mechanism allows for connecting conventional electrical devices via schuko plug 16 A 250 V~, while also offering direct charging for mobile devices, smartphones, tablets, and other electronic devices thanks to its USB type A and USB type C ports. With a total power of 10.5W and an output of 5Vdc up to 2.1 A, this schuko base with double USB facilitates efficient charging of Android and iOS devices without the need for additional adapters. It is ideal for homes, offices, hotels, and commercial spaces that require modern and discreet charging solutions. Its screw terminal connection system ensures safe and professional installation, accommodating cable cross-sections from 1.5 to 2.5 mm^2. Designed for flush or surface installation in a universal box. With an IP20 protection rating and compliance with LVD, EMC, and RoHS regulations, it offers reliability, durability, and safety for daily use. The schuko socket with USB A+C Simon 75 is the ideal option for modernizing electrical installations, optimizing spaces, and providing a socket base with an integrated USB charger that meets current connectivity and charging needs.
