

Cover for mechanism of the German double socket outlet white Simon 500 Cima

REF. 50001841-030

BASIC INFORMATION

DESCRIPTION

The Cover for the mechanism of the double Schuko socket outlet white in colour of the Simon 500 Cima series is one of the most demanded products in the industry, both by professionals and private individuals thanks to its multiple qualities. This element needs to be combined with a double socket-outlet with schuko format. With dimensions of 100 x 50 x 9 mm, its structure has been made with halogen-free thermoplastic material. This component will provide security to the electrical installations in private homes, commercial premises or the headquarters of companies because it guarantees no flame propagation in case of fire and the low toxicity in case of smoke all with the best value for money that there are in the market today, a feature that is present in all products and accessories, designed by Simon.
