Flat voice and data plate without dust cover for 1 element with 1 RJ45 category 6A FTP white Simon 500 Cima

REF. **50001185-030**

BASIC INFORMATION

DESCRIPTION

Flat base plate of voice and data, of the Simon 500 Cima series. Includes a dust shutter and has an element for an RJ45 connector. The category to which is part of the plate is 6A FTP and its finish is fully white. This provides functionality to the product, as it is easy to integrate into any space. The individual version of the voice and data plate has a module and includes the clips necessary to place it in horizontal or vertical enclosures. It is not necessary to take the specific tools for its adaptation. Its exact dimensions are 50 x 50 x 44 millimetres. This makes it quite compact. This plate of the Simon 500 Cima series has been designed from metal materials thermoplastically isolated and free of halogens. In this way is achieved to increase the security of the plate for its use. Also, in the event of smoke, the toxicity is minimal. The maintenance of the Simon 500 Cima series is very simple, since it is enough to use a soft cotton for cleaning.
