

Plate for inductive R/TV sockets white Simon 27 Play

REF. 27053-34

BASIC INFORMATION

DESCRIPTION

White in colour, we find the plate for inductive sockets of R-TV. Its measurements are as follows: 45x45 mm and belongs to the Simon 27 Play range. The part is prepared for 2 modules. It is available in 2 different finishes, but it is recommended to choose the colour of the plate depending on the colour of the frame with which it will be used. For its installation, it will be enough to recess the part or place it on the desired surface-mounted. The material used for the piece is thermoplastic; hard and resistant. This allows the plate to be fully functional between 5 and 40° C, and can support maximum temperatures of up to -25 and 50° C as requested by the regulation. You can use the plate for any type of home, business or local, with the guarantee and security of a brand consolidated in the market.
