Back kit for 2 elements with 1 Schuko socket outlet and 2 two-way push-button switches Simon 100

REF. **10010204-039**

BASIC INFORMATION

DESCRIPTION

Back kit for two elements with a Schuko socket-outlet 2-way switches and two Simon 100 series pushbutton. The kit consists of a plug and two 2-way switches. It also incorporates a function with fast-terminals connection with just one click. The terminal connection is very comfortable to use and can also be done on the same face. The installation of the cables can be done individually, one by one, or if you prefer to save time in the installation can incorporate all three at the same time. The safest option for correct installation and subsequent operation is to separate the input and output cables into different holes. The levers are large, so they allow you to perform the installation of a simpler way, adapting to the finger and being much more adaptable. The contact has a built-in blade that presses the wire and removes the insulating part until it makes contact with the active part of the wire to start its operation.

COMPATIBILITY

Front Kit Simon 100

ETIM CLASS

EC002846

TECHNICAL INFORMATION

AVAILABLE MARKET
CE

CURRENT (A)
10 AX
