

Cover for voice and data flat plate with dust cover for 1 AMP® RJ45 connector white Simon 82 Centralisations

REF. 82585-60

BASIC INFORMATION

DESCRIPTION

Cover for voice and data flat plate with dust cover, white in colour (even if it is available in 5 different finishes), for 1 RJ45 connector AMP®, belonging to the Simon 82 series. It is a cover with 1 element and is suitable for both flush mounted and surface-mounted and so that you clean it in a very simple way, as you will only need to wipe it with a soft cloth, slightly dampened in soapy water and without resorting never with abrasive cleaners or cloths that contain chlorine in their formulation, as they could cause the cover is damaged and not worked of the correct way. The Simon 82 series Centralizations stands out, above all, because it is capable of offering many more functions (temperature programming, adjustment of lighting, timing and clocks, sound and the centralisation of blinds) in less space. In addition, this range of mechanisms stands out for being very versatile and is that it can be position, place in countless spaces such as, for example: Control stations and / or connection, work stations, kitchens, furnishings, bed headboards, hotels, restaurants, offices and retail, among others.
