Voice and data flat plate with dust cover for 1 element for 1 ITT Cannon® RJ45 connector black Simon K45

REF. **KA65/14**

BASIC INFORMATION

DESCRIPTION

Flat base plate of voice and data that includes a dust shutter of 1 element suitable for 1 ITT Cannon ® RJ45 connector with black finish and belonging to the series Simon K45. The product has dimensions of 45x45 mm and a depth of 8.5 mm is suitable for surface and flush mounting and is in compliance with the regulations, which governs this type of mechanism. For its halogen-free thermoplastic material, the piece guarantees maximum security in case of fire, as well as the minimum toxicity if any smoke. One of its main qualities is therefore the exceptional resistance to high temperatures. The plate can be combined in vertical enclosures, although it would be necessary in this course to use the 90º positioner (reference K66), so that the plate is maintained vertically. For maintenance, use a soft, dry cloth.

FINISH

Black

COMPATIBILITY

Simon K45 enclosures for installation in the wall, floor, ceiling and furniture and Simon 500 Cima enclosures (need to be combined with the K45 to 500 Cima adaptor ref.50012088-038)

PACKAGING CONTENTS

Flat voice and data plate with dust cover

ETIM CLASS

EC000018

REMARKS

When combining the voice and data plate in vertical housings (mini columns, columns, Teleblock, channels, mechanism holders, etc.) you must use the 90º positioner (ref. K66) to guide the plate into a vertical position.
