Cover for 2 gloss black USB connectors Simon 100

REF. **10001090-138**

BASIC INFORMATION

DESCRIPTION

Cover for 2 USB connectors with quartz effect in black color belonging to the Simon 100 series. This cover is individual and has an element and is suitable for recessed installation, in places with a temperature between 0 and 40ºC, although it can withstand extreme temperatures of approximately -25 to 75ºC. Its design complies with standard EN 50581: 2012 and is made of PMMA with a thermoplastic socket, a material very easy to maintain because it is sufficient to clean it with a soft cloth slightly dampened with soapy water, without having to use this abrasive. rags or cleaners containing chlorine could damage the cover and prevent it from working properly. The Simon 100 series is designed to facilitate interaction between users and, therefore, the Simon series is more intuitive, simple and comfortable to use.

FINISH

Gloss black

COMPATIBILITY

Mechanisms Simon 100
