Plate for R/TV+SAT inductive sockets white Simon 73 Loft

REF. **73097-60**

BASIC INFORMATION

DESCRIPTION

Plate for R-TV + SAT inductive sockets in a discreet colour white finish, this plate is part of the series of rockers and covers Simon 73 Loft. Currently, it is possible to take the product in three different finishes, so it is recommended to choose the frame in white colour, in exactly the same way as the tone of the plate. This is the individual version, for a single element of the plate. The plate does not include a signaling function, it is made of a thermoplastic material, which perfectly supports very variable temperature ranges (between -25 to + 50 degrees centigrade). The exact dimensions of the plate are 55 x 55 mA and does not require too maintenance. The correct cleaning of the product is done with a soft cloth, slightly dampened in a solution of soapy water. It is recommended that you always avoid abrasive cleaners, wealthy in chlorine, to extend the service life of the product.

FINISH

Graphite

MATERIAL

Plastic

PACKAGING CONTENTS

Plate

SYMBOL

R-TV+SAT

COMPATIBILITY

Simon 73 Loft mechanisms

ETIM CLASS

EC000018

REMARKS

Available in 3 finishes. It is recommended to choose a frame the same colour as the selected plate
