Lower trim for mini columns and lower or upper trim for columns with 1 side white Simon 500 Cima

REF. **52551801-030**

BASIC INFORMATION

DESCRIPTION

This lower trim is from the Simon 500 Cima range and is designed to be installed in floor mini-columns, or in the upper or lower half of columns with one side, so it is a product, within the fixed to ceiling or floor category, which stands out for its versatility. Its measures are 165 x 125 millimetres and 60 millimetres of depth and comes in a traditional white colour, which means that the product is incorporated easily into any room of the home, office or location it is placed in, regardless of its decoration and aesthetic style. The trim is made of halogen-free thermoplastic material, which gives a lot of resistance and hardness. Also, this material stands out for providing the product of great safety as it does not contribute to flame spread in case of fire and reduces the toxicity of smoke.

FINISH

White

PACKAGING CONTENTS

Lower trim
