IP66 watertight raised floor box empty kit for 1 Simon K45 mechanism + 1 narrow blind cover and sheath

REF. **KGH100RF/74**

BASIC INFORMATION

DESCRIPTION

Simon completely renews its range of watertight floor boxes for indoor and outdoor environments. This is a kit that includes the manual closing mechanism frame with capacity for 1 K45 function of 45x45mm and another of 22.5x45mm, to be integrated into the included enclosure for installation in technical flooring with cutting dimensions of 125 x 125 mm. The product design, combined with its stainless steel mechanism frame, ensures a robust, solid, and secure installation as it withstands a water jet of 1 kg/cm^2 from any direction, achieving a protection rating of IP66 when the lid is closed. It also supports a maximum load of 1500 kg and has an IK08 impact resistance. It maintains an optimal cable bending radius for high category voice and data connections. Our accessory for plug connection with the lid closed is also available, allowing us to keep our connections active with an IP54 (see reference KFA1001), the possibility to level our box in case of an irregular substrate (see reference KFA1003), or the ability to link more than one box (see reference KFA1002).
