

Adaptor plate graphite Simon 75

REF. 75088-38

BASIC INFORMATION

DESCRIPTION

The plates, rockers and covers of the Simon brand is one of the most functional in the market. This adaptor plate is part of the Simon 75 series and has a discreet finished in graphite colour grey. Thanks to this, it is possible to install it in a multitude of rooms, guaranteeing a harmony appearance enviable. This plate measures lamps of 45 x 45 millimetres. Can be found in 3 different finishes, guaranteeing the versatility of product. However, it is advisable to install the frame in the same colour as the rocker baseboard of the chosen. It is the individual version of the plate, which has only one element and does not include any engraving or signaling function. For its correct installation, it is possible to recess it or place it on surface-mounted. It is made of a powerful and safe thermoplastic material, it can withstand temperatures from very low temperatures (-25 degrees) to the most high (+ 50 degrees centigrade). This component guarantees the security, to prevent the propagation of the flame in case of fire.
