Single rocker for switches ivory Simon 82

REF. **82010-31**

BASIC INFORMATION

DESCRIPTION

Available in the colours white, ivory, matt aluminium, matt champagne and graphite and valid for switch, 2-way switch and crossover, the Simon 82 series features the individual Rocker for ivory control mechanisms. Its easy installation, both in surface-mounted and recessed in the wall, has turned it into a cover present in all types of public and private buildings such as offices, hospitals, commercial establishments, headquarters of official organizations, hotels, bars or restaurants or educational centres. With measures of 55x55 mm, the resistance to knocks and negative consequences of small accidents it may suffer is a consequence of the thermoplastic components with which its structure has been developed, which is also designed to withstand both high and low temperatures, a damp cloth is sufficient to prevent the oxidation that may occur over time.

FINISH

Ivory

MATERIAL

Plastic

PACKAGING CONTENTS

Single rocker and fastening bracket

SYMBOL

Without engravings

COMPATIBILITY

Simon 75 and Simon 77 mechanisms

ETIM CLASS

EC000011

REMARKS

Available in 6 finishes. It is recommended to choose a frame with a base the same colour as the selected rocker.
