Voice and data flat plate with dust cover for 1 element for 1 ITT Cannon® RJ45 connector white Simon K45

REF. **KA65/9**

BASIC INFORMATION

DESCRIPTION

Voice and data flat plate with dust cover, this plate is an element for an RJ45 connector ITT Cannon. It is part of the series Simon K45 and its finish is white in colour. It has an element of protection against dust. Specifically this is the fourth module of the individual version, the plate is available for both one as for two RJ45 connectors and includes a dust shutter. The series Simon K45 commitment plates of small size (45x45 mm and 8.5 mm depth) very versatile in its installation, as it can be installed both recessed and on a surface-mounted. This plate of voice and data, in particular, has been manufactured with materials thermoplastically isolated, fully free of halogens, so that it is possible to propagate the flame in case of fire incidental. However, the plate can withstand temperatures of up to + 60 degrees centigrade. To combine this plate with other vertical enclosures, it is necessary to use the 90 ° positioner (ref. K66). The series Simon K45 is easy maintenance and cleaning, simply use a dry cloth to clean the plate.

FINISH

White

COMPATIBILITY

Simon K45 enclosures for installation in the wall, floor, ceiling and furniture and Simon 500 Cima enclosures (need to be combined with the K45 to 500 Cima adaptor ref.50012088-030)
