

Flat voice and data plate with dust cover for 1 AMP® RJ45 connector grey Simon 75

REF. 75585-65

BASIC INFORMATION

DESCRIPTION

The security is not at odds with the most innovative design in the mechanisms developed for electrical systems. The best example of this binomial is found in the products included in the Simon 75 series, such as the flat voice and data plate with dust cover for an RJ45 connector in grey included in this range, available in the following finishes: Snow white, ivory and grey, this piece has been manufactured with the best thermoplastic materials. The advantages of this product are endless: It is easy to clean, just a soft damp cloth is enough; is highly resistant to the passage of time, so it is perfect for withstanding minimum and maximum temperatures. And has a very competitive price, unmatched by the competition. Suitable for surface and flush mounting, this is a type of plate compatible with AMP connectors and includes an adapted RJ-45 module with a simple connector.
