

Cover for key mechanisms/mono speaker white Simon 75

REF. 75057-30

BASIC INFORMATION

DESCRIPTION

This Cover for mono loudspeaker key mechanisms is part of the Simon 75 series products. The cover comes in a traditional finished in white colour, that promote its perfect integration in any room of the home, home or office where it is without break with the harmony appearance. But if the user seeks to innovate and a range of different chlorines, more cheerful, daring or elegant, the cover is disponer in a total of six different finishes, only need to be taken into account, is that it is advisable to choose a frame with the same baseboard colour as the rocker selected, to create a perfect harmony appearance of the end product. The installation of this cover is very simple and can be carried out by means of recessed or directly in surface-mounted. It stands out for the thermoplastic material of which it is made the product and that gives it an extra resistance and greater hardness, which contributes to their longer service life.
