

Telephone socket half element with 6 pins RJ12 matt champagne Simon 82 Centralisations

REF. 82481-64

BASIC INFORMATION

DESCRIPTION

This telephone socket of the brand Simon focuses on the elegance in its finish, as it is displayed in a colour champagne matte, perfect for installation in countless environments. This is a telephone socket in individual version and only half an element, which includes six RJ12 pins. This product can be found in the catalog of the series Simon 82 Centralisations. The telephone socket is Category 3, it has a connector and a total of two wires. It can be installed in two different shapes: Recessed or surface-mounted. The clamping of this Simon product is screwed and works by insertion. Simon is a brand versatile that is characterized by the maximum quality of its products in different scopes. The security guarantees that offers the signature are excellent, as it is manufactured from materials innovative, which prevent the toxicity and the propagation of fires. To extend the service life of the telephone socket you just need to clean it with a soft and damp cloth.
