

Adjustable intermediate feed white

REF. 89940330-039

BASIC INFORMATION

DESCRIPTION

Get the appropriate indoor lighting in each situation and space is the motto with which have been designed all products included in the wide Simon catalogue. An element that perfectly fulfils this starting point in the middle Power adjustable white in colour, an element that will increase the energy efficiency and economic efficiency of electrical systems in the headquarters of companies and private homes, commercial premises. This is a power of high quality, which can be carried out conveniently and easily in a few minutes on a 3-phase rail. The high temperatures does not deterioran its structure thanks to the qualities of the components with which it has been manufactured. It also stands out for a design very innovative based on avant-garde lines that highlight on the other similar articles present on the market today.
