Flat voice and data plate with dust cover for 1 RJ45 Infra+® for 1 element white Simon 500 Cima

REF. **50015085-030**

BASIC INFORMATION

DESCRIPTION

This plate of voice and data plate is within the Simon 500 Cima range and is perfect for an RJ45 connector Infra + ® that provide energy to an element. Its installation is very simple, it is made up of a module and has dimensions of 50 x 50 millimetres and 11 millimetres of depth. The plate is also very versatile, as it includes clips for fastening in vertical and horizontal enclosures without the need for an adaptor. It comes in a white classic colour that will make you incorporate into everyday perfectly in any room of the home, office or place where it is placed, regardless of the decorative style of this. Its thermoplastic material of high quality halogen-free, provides the product of great resistance and hardness. Also, gives a lot to the final set security, because the product contributes to the no-propagation of the spread in case of fire.
