REF. **75630-37**

BASIC INFORMATION

DESCRIPTION

This is a frame for 3 elements, garnet, which is part of the Simon 75 series, a series that has a great variety of combinations of colour. Between the 13 finishes available for the frames, 15 colours to choose from for the parts pieces and 6 colours available for the rockers, we have an infinite number of combinations. This frame in garnet colour is manufactured in thermoplastic and rectangular design allows us to position it in either of two directions. It measures 80x230mm. The frame requires an intermediate piece for placement. It is a model suitable for surface and flush mounting. A great advantage is that it is part of the Simon 75 series is compatible with the Simon 77 mechanisms, its installation is simple and quick. The quality of Simon products is guaranteed, as we are a company with more than 100 years of history and is a benchmark products.
