

Plate for electronic mechanisms graphite Simon 82

REF. 82080-38

BASIC INFORMATION

DESCRIPTION

This plate for electronic devices is presented in graphite colour and belongs to the Simon 82 series. The product comes in 6 different finishes to suit the needs of each client. It is best to select a frame that is the same baseboard colour as the of the plate, as the result will be much better. The plate is suitable for surface and flush mounting, so that it is very easy to install, without any building work or complications. The piece is made of thermoplastic, a material very resistant to extreme temperatures, in addition, it is homologated and complies with the current regulation. The manufacturer recommends installing the plate at a temperature ambience of between 5 and 40° for an optimal conservation. The product dimensions are 55x55 mm for cleaning and proper maintenance, it is advisable to use a soft cloth slightly moistened in soapy water, it is also necessary to avoid the use of abrasive cloths and / or abrasive cleaners containing chlorine.
