Angled voice and data plate with dust cover for 1 element with 2 category 5e UTP RJ45 graphite Simon 500 Cima

REF. **50004086-038**

BASIC INFORMATION

DESCRIPTION

Plate of voice and data plate of the Simon 500 Cima series. The plate includes a dust shutter and has an element with two RJ45 connectors. The finished in graphite colour gives the grey plate of elegance, making it possible to its use in a multitude of spaces. This plate is part of the category 5e UTP and is manufactured from materials thermoplastically isolated, that enhance the security in its use, as it does not contain halogens, and in the case of high temperatures the smoke emission, which minimizes the toxicity. This is the individual version of the plates of this series with a single module. In addition to being able to adapt to one or two RJ45 connectors, the clips kit includes the necessary to facilitate the installation of the voice and data plate in vertical or horizontal enclosures. Its measures are 50 x 50 x 42.5 millimetres. The maintenance of the voice and data plates Simon 500 Cima only requires dry and soft cloths for cleaning, it is not advisable to use abrasive chemical with elements such as chlorine.
