Double rocker for blinds mechanism with security latching white Simon 75

REF. **75028-30**

BASIC INFORMATION

DESCRIPTION

Double rocker with white finish in colour and that is used for the mechanism of blinds and has latching of security. This rocker is part of the Simon 75 series, a range of products that stands out for its infinite combinations of colour, as it offers frames in 13 finishes, parts pieces in 15 colours and rockers in 6 colours. Also, another of things for which you want to highlight this series Simon 75 is due to the rectangular design of the trim frame, which allows you to adopt two different aesthetic shapes, making it a series suitable for the most varied tastes. This rocker with 1 element and is suitable for installation in surface-mounted and recessed, in a place with a temperature of between 5 and 40ºC and can withstand extreme temperatures of -25 to 50ºC, approximately. Cleaning is very simple, as it will only need to use a soft cloth slightly moistened in soapy water, so that it is in perfect condition.
