

Thermostable frame for 1 element white Simon 31

REF. 31611-30

BASIC INFORMATION

DESCRIPTION

The Simon 31 series is a sure bet, a timeless design and functional with finishes in white, ivory, aluminium and the metallized in champagne. This series has simple lines that combines with any ambience. The frame is made of thermoset, a material very resistant to impacts and extreme temperatures. It has a white finish, so we recommend the use of rockers and covers of the same colour. The dimensions of this frame are 87x87 millimetres and allows us to its installation both vertically and horizontally. It can be found with capacity for 1, 2, 3 and 4 elements, for a better conservation we must avoid the use of abrasive cleaners containing chlorine. This is a product of quality, with a very competitive price. After the brand Simon are more than 100 years of experience and international awards in the manufacture of small electrical products.
