Voice and data flat plate with dust cover for 1 element for 1 Nexans® RJ45 connector white Simon K45

REF. **K85/9**

BASIC INFORMATION

DESCRIPTION

Flat base plate for voice and data, has a dust shutter and is an element, for an RJ45 connector Nexans. The plate belongs to the series Simon K45 and has a perfect finish is white in colour and discreet. These plates for voice and data of Simon advocate for the maximum quality and versatility, it can be installed in a multitude of spaces. This plate Simon is the individual version of half an element and is available for both one as for two RJ45 connectors. Its exact dimensions are 45 x 45 millimetres, with a depth of 8.5 millimetres. It is manufactured from thermoplastic components halogen-free, which provides the product with a security extreme. To combine this flat base plate Simon in vertical enclosures, it is necessary to take the 90 ° positioner (reference: K66). In this way you will be able to guide the plate in vertical. A dry and soft cloth is only necessary to clean the product, always avoiding abrasive cleaning agents that contain chlorine or other type of chemical.
