

German socket outlet 16A 250V~ with safety device and screw terminal connection white Simon 27 Play

REF. 27472-65

BASIC INFORMATION

DESCRIPTION

In format for Schuko lateral ground connection, the white socket outlet with safety device and screw-terminal connection of the Simon 27 Play series is one of the best selling in the market today. This high demand is due to the high performance of this piece, which has a current of 10A, a voltage of 250V~ and measures 45x45 mm Suitable for surface and flush mounting, it is a socket-outlet ideal for homes or buildings where there are minors, as the covers include the child protection function. Its easy installation and insertion operation are a plus in this two-module piece. The metal components with halogen-free thermoplastic insulation and thermo-stable trim with which it has been manufactured make it a perfect socket-outlet for enduring extreme conditions with high temperatures in different environments.

FINISH

White
