

Plate for electronic touch mechanisms with blue light indicator graphite Simon 75

REF. 75034-38

BASIC INFORMATION

DESCRIPTION

It is a plate designed for touch electronic devices. It includes a luminous light for easy handling. It belongs to the Simon 75 series, a collection designed to innovate in the home thanks to its functional devices and, at the same time, decorative. The plate is made of thermoplastic and is graphite colour, features that make it ideal for any corner. It is suitable for surface and flush mounting, so that it can be installed quickly and without the need for technical know-how. It is available in 6 different finishes and in packs of one unit. It does not include any engraving, for cleaning, you can use a cloth that is soft textured and slightly moistened in water with soap, choose a frame that is the same baseboard colour as the selected plate and you will see the extraordinary result.
