Box for use of universal frame-holder mechanisms in columns with 1 or 2 sides Simon 500 Cima

REF. **AL50**

BASIC INFORMATION

DESCRIPTION

The junction box of the Simon 500 Cima series is the ideal complement for use on mechanisms with universal frame-holder on both of one and two sides, with the same range. The box is multifunctional because in addition to be essential to the installation, this type of system workplace solutions contribute to embellish the final product and to integrate completely in the room where it is, in this sense, the box is presented in a beautiful grey colour that will be perfect in columns of the same colour or graphite colour. Its measures are 70 x 72 millimetres and 52,3 millimetres of depth. It is a highly versatile product because it offers the possibility of linking of several boxes. The material of which it is made this product is halogen-free thermoplastic with the advantages that this implies. This material is self-extinguishing, which means in case of fire does not spread the flames. Also reduces the toxicity of smoke.

FINISH

Grey

COMPATIBILITY

Simon universal mechanisms.

ETIM CLASS

EC002980

MATERIAL

Plastic

PACKAGING CONTENTS

Box for use of Simon universal frame-holder mechanisms

REMARKS

Option to connect several junction boxes
