

Single rocker with viewer for S.77 mechanisms aluminium Simon 82

REF. 8200011-033

BASIC INFORMATION

DESCRIPTION

The different textures, pure metals, brushed, polished, litmus effects, translucent or granulated textures, give the Simon 82 series a great variety of finishes that allow a multitude of combinations. The individual Rocker with viewfinder for S.77 mechanisms in aluminium included in this range is a great alternative since, in addition to its modern appearance, has all the features and features of this Simon series. The rocker that is placed on the structure of any plug is a part that is also important for the correct operation of any electrical system. This product, which is effective, attractive and economical, is available in six different finishes, but we recommend choosing the frame with the same baseboard colour as the rocker. With the best price and the highest quality, this rocker has been manufactured with galvanized thermoplastic components and is suitable for surface and flush mounting.

FINISH

Aluminium

MATERIAL

Plastic

PACKAGING CONTENTS

Single rocker and fastening bracket
