Voice and data flat plate with dust cover for 1 element for 1 ITT Cannon® RJ45 connector white Simon K45

REF. **K65/9**

BASIC INFORMATION

DESCRIPTION

Plate, 1 element for 1 RJ45 connector ITT Cannon ® for data and voice board with dust cover and belonging to the series Simon K45. It is an individual version, with an average number of modules and can be combined with data vertical enclosures, such as, for example, mini-columns, columns, Teleblock, channels, mechanism holders. It measures 45 x 45 mm and has a depth of 8.5 mm This plate is made (following the regulation UNE-EN 60670-1: 2006) in completely halogen-free thermoplastic, which means that it is to guarantee, in case of fire, no flame spread in case of fire, and, in the event of smoke generation, which does not there is a high level of toxicity. It can be mounted in rooms with a temperature located between the -5 and 60 ° C, making it perfect for any type of climatology, something that has made it has become one of the best-selling plates.
