REF. 82055-93

BASIC INFORMATION

DESCRIPTION

Music is an element with which you can improve the ambience, making it the warmest. The installation of these systems is becoming increasingly common. Having elements that prevent deterioration will keep them in better condition for longer. To do this, for example, we have the Plate for ambient music regulators cold aluminium Simon 82. With universal dimensions of 55x55 mm, the plate includes musical note grading. Another of its advantages is its simple installation, being suitable for surface and flush mounting. It has been manufactured with the best materials with components of metallized thermoplastic. For this reason, we are looking at a plate highly demanded plaque in the headquarters of official and multinational organizations, company offices, medical centers or schools. Designed to withstand all kinds of temperatures and environments, its easy cleaning is another of the features of this plate for music regulators.
