RJ12 telephone socket half element with 6 contacts white Simon 27 Play

REF. **27481-34**

BASIC INFORMATION

DESCRIPTION

When we make a telephone connection nothing can fail. An interruption can give the treat a business or the transmission of good news. To ensure that nothing fails at these special moments, many professionals and individuals already rely on the half-item telephone socket for RJ12 connector of the Simon 27 Play series. This narrow-module telephone socket, which is distributed in boxes of 20 units, is available in white colour and has 6 connections. Supports a wire cross-section of 0.3 to 0.5 mm and complies with the regulation TIA 568 C. 2. It has a screw terminal connection, insertion functioning and it has a stripped wire 12 mm Also has been manufactured with metal components with halogen-free insulation and thermoplastic trim, high quality materials that are always used throughout the Simon 27 Play series. Moreover, its price is unbeatable.
