

Rocker half element with viewer for mechanisms matt champagne Simon 82 Centralisations

REF. 82011-64

BASIC INFORMATION

DESCRIPTION

Rocker with viewer Simon, in individual version and only half element. The product is presented in a very current colour finish in matte champagne. Its design makes it the perfect for the control mechanisms of the brand, requiring an extra design and today. It is part of the series of rockers and covers Simon 82 Centralisations, which is characterized by the versatility and the quality of the materials used in its manufacture. The rocker is available in a total of five different finishes, so it is advisable to choose the frame in the same colour necessary matte champagne that the baseboard of the selected rocker. The installation is very simple, as it will only need to determine whether it is placed over surface-mounted or flush-mounted into the wall. This rocker half element, has a signaling function and has no engraving. Its maintenance is simple, you just need to clean it with a cloth slightly dampened.
