

Interchangeable case for 1 element frame stainless steel Simon 27 Play

REF. 2700617-042

BASIC INFORMATION

DESCRIPTION

Interchangeable cover for 1-part frame, made of stainless steel and included in the Simon 27 Play series. In this collection we find all kinds of covers available in 4 ranges, with the aim of invigorating spaces. The frames you do not have to be boring mechanisms, as they can now be customized thanks to interchangeable sleeves. Specifically, it measures 86x93 mm and is made of galvanized thermoplastic, in compliance with the current regulation. It is suitable for surface and flush mounting and its installation does not involve any complications. Also, the piece can be placed both vertically and horizontally, depending on the tastes of each one. For an optimal effect, we recommend combining the interchangeable sleeve with rockers and covers with graphite finish. For maintenance, it is sufficient to use a soft, dry cloth and avoid cleaning products containing chlorine.

FINISH

Stainless steel
